Updating to latest stable Redmine is already overdue.			

#### History

##### #1 - 11/17/2017 04:17 PM - Marc Mengel

Okay, so got release info, started setting up new ups packages on cdcvsdev.fnal.gov

- built ruby v2\_4\_2 with updated gems for rails, sqlite3, pg (postgres interface), and passenger (sort of python uwsgi equivalent).
- built passenger apache module
- downloaded Redmine 3.4.3, setup ups product area for it, symlinked "files" subdirectory, and brought in configs from 2.6.0.

Still to do:

- migrate dev database
- test startup with new passenger, etc.
- install plugins that are in old release
- look at installing new plugins (fancier Gantt, etc.)
- test
- cut new ruby, redmine ups pkgs into fnkits
- create CHANGE to schedule installing in production.

##### #2 - 11/17/2017 05:17 PM - Marc Mengel

- % Done changed from 30 to 50

Its ALIVE!!

Okay, so we have it up and running on <https://cdcvsdev.fnal.gov/redmine/>

Still need to:

- find newer/better versions of plugins
- try out new plugins
- test stuff...

##### #3 - 11/21/2017 04:41 PM - Marc Mengel

- % Done changed from 50 to 60

Got updated versions of

- Jenkins and
- Code Review

plugins, and added

- Redmine Planning plugin (drag and drop on your Gantt chart view) and
- Better Gantt Chart

plugins. Now need to test a lot...
